

Catalogue No. 6 published by the S. A. Loevy bronzeware factory in the 1930s contained a variety of door fittings by Rachlis, Grenander, Behrens, Wagenfeld and Paul, where a circular neck was combined with a flat grip section. The FSB 1021 is an equally timeless variation on this design principle.

Pictured: right-hand model

Other variants:
 – square roses
 – oval/angular backplates
